RG-AW 1139 Automatic Water Works

The automatic water works consists of a garden pump in connection with an electronic flow switch. External water resources, e. g. rain water reservoirs can be used for irrigation or industrial water supply. The electronic flow switch automatically turns on the water works, when water is required and shuts it off, when no more water is needed, i. e. when the water tap closed. The thermal-cut-off protector switch saves the pump from overheating. In case of the water supply runs dry, the pump is protected by the dry run protection. Furthermore the garden pump is equipped with a pre-filter, which prevents that dirt arrives into the pump inside.

Performance data:

Features

- Electronic flow switch
- Carrying handle
- On-/off-switch
- Plastic pump housing
- Water drain plug
- Large water filler opening
- Pre-filter
- Return valve
- Female thread for hose connection made of stainless steel
- Vent screw

Logistic Information

Type:	RG-AW 1139
Art.-No.:	41.770.00
Ident-No.:	01018
Bar code:	4006825 549454
Packaging:	635 x 260 x 315 mm
Sales unit:	1 pc
20'':	525 pcs
40'':	1,028 pcs
40'' HC:	1,232 pcs
Net weight:	12.5 kg
Gross weight:	14 kg

Technical Data

■ Mains:	230 V ~ 50 Hz
■ Power:	1,100 W
■ Delivery capacity max.:	4,100 l/h
■ Delivery height max.:	48 m
■ Delivery pressure max.:	4.8 bar
■ Suction height max.:	8 m
■ Starting pressure:	approx. 1.5 bar
■ Water temperature max.:	35°C
